WATER CO. WINS IN COURT

Judge Ellsworth Decides in Favor of Corporation Against Rate Payer

Condemnation Suit Fails Because Against Constitution Is Decision

"A construction of the Constitution which would produce such absurd results must not prevail, unless the language of the instrument is such as to make it clearly necessary," is the opinion handed down today by Judge Ellsworth in the suit of William M. Hatfield against the Peoples Water Company et al., the plaintiff asking that the franchise and property of the corporation be forfeited to the city of Oakland for an alleged overcharge in rates.

That it was not the purpose of the Constitution to place in the hands of a private rate-payer, the power of bringing forfeiture proceedings against a corporation, was pointed out in the decision, the Court contending that such matters should not be forced upon a municipality against its wishes.

BASIS OF SUIT.
The proceedings were commenced under a clause in the Constitution which states that any person, company or corporation charged with attempting to collect from individuals or corporations using water any sum in excess of the rates fixed by the municipalities according to law and convicted of same, upon complaint of city or county authorities and forfeit its franchise and property to the city or county in which the plant is located.

In his decision Judge Ellsworth also declared that if such proceedings were made possible, all corporations would be at the mercy of individuals and that it was not fair to select a water company as against a gas company, a railroad or other public service corporations.

DECISION BY COURT.
Judge Ellsworth's decision follows: In the Superior Court of the State of California, in and for the County of Alameda.

William M. Hatfield, plaintiff, vs. Peoples Water Company, a corporation, et al. defendants.
No. 21850.
This is a demurrer to the amended complaint.
The plaintiff claims that this is an action.

DANCE ON, IS SCHOOL EDICT

Trustees Decide the Informal Noonday 'Hop' Enjoyable and Healthful

Teachers Called On to Give Their Testimony at Secret Session of Board

At a secret session of the board of education last evening, held to consider the propriety of permitting students of the Oakland High school and the Fremont High school to continue using the gymnasium of the two schools for impromptu dancing during school recesses and the noon hour, the school directors decided that with proper chaperonage by teachers the dancing should be allowed to continue.

The dance, as a healthful form of exercise, received the approval of the educators, and it was explained by teachers and principals of the two high schools summoned before the board, that this form of recreation proved a drawing card to keep the students from the streets.

IDEALS CHANGED.
While the trustees were seated with playing ping-pong and a game of pool, the modern youth and maiden of tender years must be amused with more civilized forms of recreation. The walls and two-step have supplanted the old games and pastimes in the eyes of the school children, and with the change has come a corresponding readjustment in the ideas of the trustees to meet the new demands.

At the executive session of the school board last evening, Charles E. Keyes, principal of the Oakland High school; E. S. Rosseter, principal of the John C. Fremont high school, and a number of faculty members of the two schools, including Miss Margaret Wythe, Haven V. Earl, Charles H. Jordan, Maurice D. Nichols and John R. Sutton, addressed the school directors. And answered questions as to the manner of dancing in the high schools gave their opinions as to the desirability of continuing the practice.

IT'S PLEASING ENOUGH.
"Dancing has proved a pleasing recreation for the students," declared Principal Rosseter. "When suitably supervised by

OAKLAND TO HAVE A BIG GUN

J. P. Edoff and Senator J. W. Stetson Back From Trip to Cuba

This City May Secure Cannon From Wreck of the Battleship Maine

Oakland is likely to "Remember the Maine" in an exceptionally vivid way as a result of the visit to Havana of James P. Edoff of the park commission, State Senator John W. Stetson and Henry Wickings, who returned from a trip to that city yesterday. If the plans of the travelers go well, the remembrance will be one of the four forward turret guns of the historic battleship stationed in Lakeside park.

"Our trip was like most pleasure trips," Edoff said this morning, "except for one thing, and that is a cannon. After a great deal of difficulty we got an opportunity to go out to the Maine, where the government is now hard at work of raising the vessel. We got there after the excavators had just brought to the surface two of the four forward turret guns, and like a shot it occurred to both Stetson and me that we wanted one of those guns for Oakland. It's a penitentiary offense of five years to take so much as a nail from the Maine, but we started after that gun."

AID OF SENATOR PERKINS.
When we got to Havana we telegraphed to Senator Perkins to use all his influence in Washington, to get the cannon for us, and in doing so a dispatch that he thought he might be able to work it. At the same time I communicated with Mayor Mott to use his influence with various prominent men here and in Washington, and the result is that we are looking forward to having the cannon here."

"We spent two days on the island altogether," Edoff continued, "both in Havana and in the country around about. On one occasion we traveled more than 100 miles to a sugar plantation to see the cultivation of the cane. One thing of interest in connection with the sugar industry is that all the cane is sent to this country. It is made into sugar."

"Another interesting feature of the trip was the chances we had to see a large carriage company. Nicholson suffered an accident recently which resulted in the loss of a leg. The several members were buried with full ceremonies and Nicholson even paid the \$1 road tax exacted by San Mateo county from every traveler crossing the county line. "Step by step" will be carved on the memorial tablet.

RUEF EXPRESSES GRATITUDE TO FRIENDS BY TELEPHONE

'It's Fine to Have People Helping You,' He Says

District Attorney Fickert to Have Interview With Former Boss Today

SAN FRANCISCO, Feb. 9.—With a heart full of gratitude to the friends who are fighting for his liberty and with joy permeating his being because of the privilege of visiting his aged mother and his family yesterday, Abraham Ruef is planning for the future. During the next two weeks an endeavor will be made to have the scores of indictments which are hanging over his head on the reserve calendars in two criminal courts dismissed as a reward for the testimony he has already given before the grand jury and the evidence which will be re-

quired of him during the trial of Eugene F. Schmitz.
Before he begins his study of the law governing his present situation as a witness for the state and before he thinks of himself and of his liberty, Abraham Ruef is thinking of his friends. This morning he began with a list of more than 100 names and proceeded to call up on the telephone a number of Catholic priests who had signed a petition asking for his parole. One after another until he was forced to stop because of the arrival of visitors, San Francisco's former political boss sent his thanks in person to the clergymen who had been brought to interest themselves in his behalf.

FLASH IN HIS EYE.
"I feel fine this morning," said Ruef, as he sat in the office of the chief jailer at 8:30 this morning. He was a different man from the prisoner of twenty-four hours before. There was a flash in his eye and a smile which spoke of gratitude.

"I had a long visit with my family yesterday and now am going to try and thank all my friends for what they have done for me and for the messages of comfort they have sent me during those long months across the bay. It is fine to have people trying to do something for you. It makes one feel that there was something in life when sadness and trouble comes, when a hand is stretched out in kindness and in love by someone who you have never met."

"I would like to meet all these people to persons who signed the petition. I would like to shake hands with all those friends who have been so good, but I can't."

HEAVY GUNS POUR IN SHELLS

23 Officers Under Suspicion of Favoring Rebels Are Executed

February 18 Is Latest Date Fixed for Abdication by Manchus

MUKDEN, Manchuria, Feb. 9.—The city of Kaiping, province of Chi-li, was subjected to a severe bombardment by the revolutionary troops. According to the latest reports, the Manchurian forces brought twelve heavy guns into action, and for several hours fiercely shelled both the city and the fortresses.

Twenty-three officers belonging to the garrison of the city were executed by the revolutionary troops without trial on suspicion of collusion with the revolutionary commander.

ABDICATION SOON.
BEIJING, Feb. 9.—Shao, the representative of Premier Yuan Shi Kai, declared today that he was confident that the abdication of the throne would be an accomplished fact before the end of the month.

There appears to be less confidence now than hitherto that Yuan Shi Kai will be selected for the presidency of the republic. On the other hand, the name of General Li Yuan-hang, the present vice-president, is mentioned, and it is possible that he may be eventually selected.

WU FINISHES MAGNA CHARTA.
The draft of the proposed Magna Charta of the Chinese republic has been completed by Dr. Wu Tingfang, the Minister of Justice in the Republican cabinet, and now awaits the approval of the Senate at Nanking. The document provides for a presidential term of five years, but the Senate probably will make the first term only one year.

It is thought that a compromise may be reached on the question of the future capital of China. President Sun Yat Sen asserts positively that Nanking will be selected, although he admits that an agreement may be made to keep Peking provisionally as the nominal capital.

Desultory outpost fighting continues in many places, but the reports as to the casualties are very much exaggerated on both sides. Yang Shao Yi declared positively today that there would be no more serious fighting.

TO AID EMIGRANTS.
SAN FRANCISCO, Feb. 9.—The Chinese United Emigrant Association has been organized with headquarters at Peking, according to a cablegram received today by the Chinese Free Press. The purpose of the association is to keep account of Chinese emigrants in every country in the world. Wong Ching Wei, a revolutionary editor who was imprisoned by the Manchus, has been named president of the association by Dr. Sun Yat Sen.

Roman Candles Play Ducks and Drakes With Wild Fowl

BRAWLEY, Cal., Feb. 9.—S. Lyons, a rancher of this section, has invented a unique remedy for the invasion of his fields and destruction of his crops by wild ducks. Trap guns, hunters and scarecrows had been tried without success, although hundreds of the birds were slain. As a last resort the

exasperated rancher purchased a consignment of fireworks, and going into the fields after dark commenced battle on the stocks of ducks with Roman candles and skyrockets. The scheme worked like magic and the Lyons ranch is no longer a gathering place for the wild fowl.

Los Angeles Names Woman Poundmaster

LOS ANGELES, Feb. 9.—Los Angeles has a woman poundmaster, but her appointment was not made as a concession to the women voters. The official is Mrs. Elizabeth M. Waddell, who has been secretary of the Humane Animal Commission. The city council has decided, in the interests of economy, to consolidate the offices of secretary and superintendent of the animal pound and Mrs. Waddell will fill both offices.

Teacher Takes Drink; Dies in Few Minutes

LOS ANGELES, Feb. 9.—An investigation into the death of Delbert Norris, a school teacher, shortly after taking a drink in a saloon late last night, was begun by the coroner today. Norris, who came here recently from Central City, Ia., was seized with convulsions immediately after taking the drink and died a few minutes later.

Socialist Defeated in Reichstag Election

BERLIN, Feb. 9.—Dr. Peter Spahn, the leader of the Social-Center party, was today elected president of the Reichstag, defeating August Bebel, the leader of the Social-Democrat party, by 196 votes to 175.

Premature Explosion Kills Twelve Men in Ontario

FORT FRANCIS, Ont., Feb. 9.—A premature explosion on the construction work on the Canadian Northern railway near here today killed 12 men and seriously injured eight others.

Senate Committee Turns Down Fair at San Diego

WASHINGTON, Feb. 9.—The Senate committee on expositions today acted adversely on the resolution requesting the President to invite Latin-American countries to participate in the Panama-California exposition in San Diego, Cal., in 1915. As San Francisco is to hold an exposition the same year in which the nations of the world already have been invited to participate, the committee decided that an invitation to a second fair was inadvisable.

Aged Bridegroom Is On Verge of Death

NEW YORK, Feb. 9.—Elijah Marshall Allen, a rich lumber exporter, 74 years of age, who attracted public notice a month ago by his marriage to Miss Mattie Walker, 20 years of age, was reported dying today at St. Vincent's hospital from pneumonia pneumonia. While his physicians give out little hope for him, his bride is confident he will recover. The two were married at the country home of the bride's parents near South Norwalk, Conn., and came to New York on a special train with many of the guests.

Next day the two left for a southern resort at Pine Hurst, N. C. Mr. Allen became ill and was rushed back to New York.

New Supreme Judge Is Still in Doubt

WASHINGTON, Feb. 9.—After a conference with President Taft today Senator Curtis and Representative Anthony of Kansas said that the President would not fill the vacancy on the Supreme Court bench until next week, although the semi-official announcement was made at the White House last night that the appointment would be decided upon at today's Cabinet meeting.

Senator Curtis said the President had promised to consider once more the claims made by Kansas to have the Supreme Court bench until next week.

Secretary Nagel, however, still was regarded as the probable appointee.

Fresh Air Excursions Under Honor System

LOS ANGELES, Feb. 9.—Excursions to nature's beauty spots under the "honor system" for women prisoners who fall into the hands of the Los Angeles police is proposed by a society of women of South Pasadena as a means of reformation.

Mrs. L. P. Hillis, who conceived the plan, is willing to devote a large part of her time to conducting personally such excursions. She announced today that she had received the sanction of Chief of Police S. J. Hastings, who promised to cooperate in the plan, the chief thing being as to when women it will be safe to release under the "honor system."

Woman's Eyesight Restored by Shocks

NEW YORK, Feb. 9.—"She's dead!" cried some one as Mrs. Annie Churchill, 57 years old, totally blind and partially paralyzed for two years, was about to be taken from a wagon where she lay prone into the family new home in Brooklyn last night. The shock the words gave her roused the woman to a supreme effort and in a twinkling she had regained her sight.

"Jim, Jim," she cried to her husband, "I can see." Her loss of vision was caused by paralysis, and the shock she sustained on being taken for a corpse restored her sight.

GAEKWAR OF BARODA LEAVES OLD HARVARD

CAMBRIDGE, Mass., Feb. 9.—Jasjit Gaeckwar, Harvard's Indian Prince and heir apparent to the throne of Baroda, India, left New York yesterday to prepare for his departure home, having succeeded in winning his degree of A. B. in three years and a half instead of the usual four years.

The Gaeckwar, who has specialized in religious studies at college, has made many friends among the students.

His father, the present Gaeckwar of Baroda, is noted for his democratic manners and progressive ideas.

HOW TO DESTROY THE DANDRUFF GERM

By A SPECIALIST.

That the dandruff germ is responsible for nearly all the diseases to which the scalp is heir, as well for baldness and premature gray hair is a well known fact, but when we realize that it is also indirectly responsible for many of the worst cases of catarrh and consumption, we appreciate the importance of any agent that will destroy its power. We are, therefore, particularly anxious to give herewith the prescription, which an eminent scientist states he has found, destroy the dandruff germ from one to three applications. It will also almost immediately stop falling hair and it has in numerous cases produced a new hair growth after years of baldness. This prescription can be made up at home, or any druggist will put it up for you.

6 ounces RAY RUM, 2 ounces LAXON, 6 Compose, 1/2 drachm Menthol Crystals. Mix thoroughly, and after standing half an hour it is ready for use. Apply night and morning, rubbing into the scalp with the finger-tips. If you wish it perfumed, add half a teaspoonful of Tokalon Perfume, which mixes perfectly with the other ingredients. While this preparation is not a dye, it is unequalled for restoring gray hair to its original color.

CAUTION: Do not apply where hair is not desired and be sure to avoid tonics containing poisonous wood alcohol.

SENIOR LEADERS' CORPS OF Y. M. C. A. MEETING

For the purpose of a review of the work of the physical department, the senior leaders' corps of the Oakland Young Men's Christian Association held a meeting last evening and the members organized themselves into committees to deal with the various phases of the work, theoretical and practical.

Four new members were initiated into the organization. These had to take a business physical examination. They were: J. Lancaster, E. Molinari, F. Lancaster and E. Warner.

The committee appointed to take care of the various divisions of the physical department comprise the following:

Gymnastic—J. Lancaster, chairman, J. H. Nielson, D. Perry and J. M. Hearn, co-leaders; J. Lancaster, chairman, D. M. Jackson and Chapman, athletics—R. Howden, chairman, E. G. Lawson, E. Warner and J. Redding, games—H. Woolsey, chairman, F. Van Doren, M. Dahl and A. G. Heslop, swimming—O. Hagadorn, chairman; F. G. Kirner and A. Molinari, educational—J. Pen-ycook, chairman, O. L. Galtner and E. Beckman, social and religious—A. Wright, chairman, C. B. Hutchison and O. L. Schmidt.

FORESEES NEW AREA IN EDUCATION OF NEGRO

WASHINGTON, Feb. 9.—President Wilbur P. Thirkield of Howard University, foresees a new era in the educational life of the negro race in the marked increase in the number of students who are taking up the sciences at the university.

In his report to the trustees today President Thirkield says the opening of the new hall of manual arts and applied sciences makes available to negro students for the first time courses in civil, mechanical and electrical engineering.

STREET RAILWAY STRIKE ORDERED

Will Affect All Surface and the Elevated Lines in City of Chicago.

CHICAGO, Feb. 9.—After a meeting of leaders of the Street Carriers' Union the following statement was given out today:

"A general street railway strike, affecting both surface and elevated roads, will be ordered in Chicago some time next week unless James E. Hogarth, superintendent of the Chicago Railways Company, is removed from the operating department."

President John M. Roach of the Chicago Railways Company, who arrived in the city from Florida today, refused to make any statement until he had conferred with the men. It was learned that President V. D. Mahon of the Amalgamated Association of Street Railway Employees, had spent a week here conferring with the members of the union.

GOVERNOR HUNT TO DWELL ON FAIR

Will Tell of Its Importance in His Inaugural Message to Legislature.

SAN FRANCISCO, Feb. 9.—In his message Governor N. P. Hunt chief executive-elect of the new state of Arizona, which will be delivered at the meeting of the legislature next month, has notified the Panama-Pacific Exposition Company that he will dwell upon the 1915 fair.

The governor will speak of the resources of the West and the duty of the Pacific slope states to stand by the exposition and strive for its success.

President Moore, according to a telegram received yesterday, had a most satisfactory conference with the governor of Columbia University, securing the co-operation of that educator for the exposition. The New Jersey legislature is expected to appropriate \$100,000 for their exhibit at the fair and \$20,000 of this it is thought, will be immediately set aside.

Sam Davis of Carson City, who ran the Forty-niner exhibit at the midwinter fair, has a wonderful new plan for a concession for which have not yet been made public, but which will be along similar lines and will depict early life among the Spaniards.

WILL CONTEST IS THREATENED

Attorney Says First Wife Is "One and Only" Spouse of "Kelly" Robinson.

SAN FRANCISCO, Feb. 9.—An indication of a mysterious romance in the life of the late Crittenden ("Kelly") Robinson, well known San Francisco club man, who died last week, was given yesterday when his will came up for probate. It disposes of an estate valued at \$70,000, and, although the document was entered by the court, there is a possibility that a contest may be made on behalf of Mrs. Fannie M. Robinson, the divorced wife.

With the exception of three bequests of \$5000 each, to his first wife and to each of his two daughters, and a few smaller bequests to relatives and old friends, all the estate is given to the second wife, Mrs. Minnie H. Robinson.

There was no intimation of an impending contest until yesterday, when Attorney Sidney M. Van Wyck, representing Mrs. Fannie M. Robinson, announced to the court that if it was the intention to make any family allowance he wished that allowance to be made to his client as "the one and only wife of the decedent." No allowance was made, and the executors were directed to carry out their trust.

ANOTHER JEKYLL AND HYDE JAILED

Charles Brann Accused Burglar, Was Vaudeville Performer by Day.

SAN FRANCISCO, Feb. 9.—Delighting audiences through his prowess as a wrestler in the afternoon and evening, and pursuing the profession of a burglar during the wee small hours of the morning, the apparently checkered career of Charles Brann was brought to a sudden stop when he was arrested by the police at 3 a. m. today.

For several weeks the officers of the Harbor station have been laying in wait for the daring robber, who, under their very noses, has been attempting to loot a clothing store, at 23 Clay street, the rear entrance of which is but four doors away from their headquarters. Several days ago Corporal Boland and several patrolmen almost captured the thief after he had jimmied the rear door but had not gained entrance.

This morning, however, Officers Casey and Smith and Special Officer Solari captured Brann as he was leaving the place laden down with clothing, socks and other articles.

Returning with them they discovered that a jimmy had been used and a further investigation showed that 25 suits of clothes of the aggregate value of \$35 each, had been taken. Either Brann had been working with a confederate or had paid previous visits to the store during the night, when the suits were taken away. Brann has appeared at theaters in the Mission district and in playhouses in other parts of the city recently in a wrestling act. He is 27 years old and was charged with burglary.

THICKNESS OF UNIFORM SAVED LIFE OF SAILOR

SAN FRANCISCO, Feb. 9.—A thick navy overcoat and a heavy winter uniform contributed to save the life of John E. Kinkel, a sailor on the U. S. S. Independence, at an early hour this morning, when he was slashed by Lee Jackson, a laborer, who was later arrested by the police.

Kinkel and Jackson became involved in a dispute on the Barbary coast, and as Officers Ogden and Balletto approached to arrest them, Jackson slashed at the sailor with a knife. His coat was cut into ribbons but the blade failed to penetrate his clothing. Jackson was charged with assault with a deadly weapon and Kinkel with disturbing the peace.

Had Mapped Out Five Routes Over Which He Was to Travel.

SAN FRANCISCO, Feb. 9.—The unidentified man who killed himself by inhaling chloroform after preparing five other methods of self-destruction and who was found in a lodging house on Saturday night was identified this morning as Walter Gillman, a clerk at the Grand Union Hotel, 100 Kearney street. Gillman was reported to the police as missing yesterday, he having disappeared on February 2.

When he was found he had moved a bed against the door and lay dead with a chloroform sponge close to his nostrils. Under his pillow was a loaded revolver. In his satchel was a razor and a tube for the gas jet, while nearby at a table were quantities of morphine and cyanide of potassium tablets.

HOW TO MAKE MONEY AND WHERE—ST. AUSTIN

2 DAYS MORE SEES THE WIND-UP AT CLAREMONT VILLAS

By George, I don't know if Claremont Villas is going to LAST till Sunday night!

The way sales have been piling up this last day or so, it's a question.

But one thing is certain—if there are any of those splendid, level, 40-foot lots, at \$25 a foot, remaining at 6 p. m. Sunday you can't buy them from me on Monday morning at that price.

I can't very well RAISE prices while the sale is going on, but if any of these bargains are overlooked, the first thing I do when I get to my office at 9 a. m. Monday morning is to tack from 25 to 40 per cent onto the price of every blamed one of them.

AND I'LL GET IT, TOO.

The property is REALLY WORTH that much additional. And with the bulk of Claremont Villas sold—and it will be sold by Sunday night—I don't have to worry about the rest.

Meanwhile—up to Sunday night—here's your opportunity to buy some of the finest residence property in Alameda county at the original prices, WAY BELOW THE MARKET.

I guess where men like C. J. Prang, H. S. Butler, O. M. Bullock, H. C. Dexter, E. E. Parker, E. Maasberg and C. A. Pegris have bought anywhere from 1 to 12 lots apiece, YOU CAN'T go wrong.

Better not put it off till Sunday.

YOUNG WOMAN DIES, WEIGHED 400 POUNDS

New York World Says "Lack of Blood Killed Her Because EVERYTHING SHE ATE TURNED TO FAT"

Tried Various Advertised Fat Reducers, But All to No Purpose

HER LIFE MIGHT HAVE BEEN SAVED

Had she known of the recent scientific discoveries for reducing weight without drugs or medicines. We print below information on

HOW TO REDUCE YOUR WEIGHT

without drugs, starvation diets or strenuous exercise for the benefit of readers who may be afflicted like Miss Steudtner.

From the New York World
"Agnes Steudtner, thirty-two years old, who was 5 feet 9 inches tall and weighed considerably more than 400 pounds, died Saturday in her home, 614 Washington avenue, Hoboken. Her brother, Frederick Steudtner, told the World reporter that her extraordinary size had been a tragedy to her. She took every conceivable remedy to reduce her flesh, but to no purpose. Everything she ate turned to fat, and she really died of lack of blood."

Hardly a week goes by that we do not receive a letter from some man or woman notifying us of the death of some dear friend or relative from fatty degeneration of the heart or some other disease which was undoubtedly caused by excessive fat. We, therefore, feel it out duty to tell readers how they may safely reduce their weight without the slightest danger or discomfort. Until recent scientific discoveries were made in regard to the cause and cure of obesity, any one who wanted to reduce had three dangerous courses before them, any one of which generally resulted in failure and often in death.

You could take the drug course, which sometimes did reduce, but which generally resulted in lasting injury to the health. You could follow the starvation diet route, but this, too, was exceedingly dangerous, because it so weakened you that you were apt to contract some disease and die. Or you could follow the strenuous and constant exercise, which might enable you to get rid of considerable flesh, but here, again, success was generally done at the expense of your strength and vitality, and an overtaxed heart while taking the exercise.

But just as science has solved the problem of the wireless telegraph, the electric light, and the flying machine, so science has at last solved the problem of overcoming obesity without danger or inconvenience to the patient, so no one need now longer remain fat and, best of all, you can rid yourself of your super-

ADmits the SWAIN WILL TO PROBATE

While Mrs. Harriet Lorraine Francis, 20 Vine street, in the county jail unable to furnish the \$5000 bonds required for her release, pending her trial on the charge of forging a document purporting to be the last will of Mary A. L. Swain of Berkeley, the authentic will was admitted to probate today by Superior Judge W. B. Wells on the petition of Arthur P. Lloyd and Robert H. Austin, the executors.

At the same time the application for dismissal of the alleged forged will, filed two weeks ago, was granted by the court, meaning that the same has been used as probate.

Attorneys E. H. Stirlingham and O'Brien appeared on behalf of the executors.

Nervous People Made Cheerful

What makes all the difference between health and sickness? There is but one answer. It is the condition of the blood.

It is impossible to have thin, impure blood and strong healthy nerves and muscles. Instead, every part of the body becomes weak. The stomach fails in strength and the appetite becomes poor. The body does not obtain enough nourishment from the food, and is actually starved. Soon the nerves begin to complain and the person becomes irritable, despondent, worn out and nervous. For a time there may be no sickness, only a general run-down, weak state, but there is no real defense against disease, and from such a condition spring numerous disorders, as rheumatism, severe nervous diseases, stomach trouble, anaemia and chronic headaches.

Mrs. E. J. Bradford, of No. 1514 Spurgeon street, Santa Ana, Calif., says: "A few years ago I began to lose flesh rapidly until I weighed only 100 pounds. Before this I had always been well and quite fleshy. I also became very nervous and would lie awake all night long. I had frequent crying spells. I could not seem to help and which the least little thing would bring on. Excitement or noise made me very nervous. I had a craving for sour things but my appetite was variable. At times I would feel very well, but this would be only when I kept very quiet at home for a long time. The doctor pronounced my trouble neurasthenia or nervous debility. I was under his care for over two years. Sometimes he would treat me regularly and then he would not have to call for two months. I did not get well under his treatment and was finally advised to try Dr. Williams' Pink Pills for Pale People by a friend who had used them for nervousness. After taking a few boxes of the pills I could sleep better and I began to improve gradually until I was cured. I haven't been troubled with nervousness in some years now and consider the benefit I received from Dr. Williams' Pink Pills to be wonderful."

Dr. Williams' Pink Pills for Pale People are the one true tonic. They are guaranteed to be free from any harmful or habit-forming drugs. They have given the most gratifying results in nervous headache, neuralgia, nervous dyspepsia, St. Vitus' dance, and even in partial paralysis and locomotor ataxia. For a full statement of this treatment write for the free booklet, "Diseases of the Nervous System."

Start today to cure yourself with Dr. Williams' Pink Pills for Pale People. They are for sale by all druggists, or will be sent, postpaid, upon receipt of price, 50 cents per box, six boxes for \$2.50, by Dr. Williams Medicine Company, Schenectady, N. Y.

HATFIELD LOSES SUIT AGAINST WATER COMPANY

Condemnation Under Plea of Citizen Would Lead to Trouble, Says Court

(Continued From Page 1.)

tion to have declared and adjudged that the defendants, Contra Costa Water Company and Peoples Water Company, have forfeited their franchises and property to the City of Oakland for the public use. On the other hand, it is claimed by the defendants that it is an action to forfeit to the City of Oakland the franchises and property of the corporations. Whichever may be the correct view of the character of the action, the result must be the same.

It may well be doubted whether or not any of the property of the defendants can be forfeited which was acquired from the State. The only property which was granted by the State was the right to corporate existence and to lay pipes and conduits for the public use. Certainly no other property acquired by the defendants, if any, before the adoption of the constitution, can be forfeited. It is not in the power of the State to deprive persons of such property, except by the exercise of the power of eminent domain and paying the value of the property.

OTHER REASONS.

But laying aside this question, there are other reasons why the demurrer in this action must be sustained. Section 1 of Article XIV of the Constitution of the State of California, declares that "Any person, company or corporation collecting rates in any city and county, or city or town in this State, otherwise than as established by the legislative authority of the city in which it is supplying the water, shall forfeit the franchises and water works of such person, company or corporation to the city and county, or city or town, the same are collected for the public use."

It is claimed on behalf of the defendants that this provision of the Constitution prescribes the penalty for the corporation violating its provisions, and that the sole remedy for a violation of the provision is the forfeiture of the franchises and water works of the corporation. It is not in the power of the Legislature to provide for the violation of the said provisions of the Constitution shall, ipso facto, work a forfeiture of its franchises and property. This contention, it is claimed, is not in the power of the Legislature to add another or a different one. The act of the Legislature under which this action is claimed to have been brought is void in terms that "Any person, company, association or corporation charging or attempting to collect rates in any city or town, or in any of the water works of such person, company, association or corporation, shall, upon the complaint of a board of aldermen or other legislative body thereof, or of any water-rate payer, and upon a finding by the court of competent jurisdiction, shall forfeit the franchises and water works of such person, company, association or corporation to the city and county, or city or town, wherein the said water is furnished or used."

CONTENTION UPHOLD.

It is claimed on behalf of the defendants that that portion of the act providing that upon the complaint of any water-rate payer, and upon conviction before a court of competent jurisdiction, the corporation shall forfeit its franchises and water works, is void in that it is repugnant to the constitution, which provides that no law shall be passed which shall authorize the forfeiture of the franchises and water works of any person, company, association or corporation, to the city and county, or city or town, wherein the said water is furnished or used.

It is claimed on behalf of the defendants that that portion of the act providing that upon the complaint of any water-rate payer, and upon conviction before a court of competent jurisdiction, the corporation shall forfeit its franchises and water works, is void in that it is repugnant to the constitution, which provides that no law shall be passed which shall authorize the forfeiture of the franchises and water works of any person, company, association or corporation, to the city and county, or city or town, wherein the said water is furnished or used.

If the claim of the plaintiff is correct, then the defendant corporation might be subjected to thousands of suits by the water-rate payers, and it is not likely that there would be many different municipalities which would be sued. It is not likely that there would be many different municipalities which would be sued.

MISS HART WILL
PRESS HER CLAIM

Says She Will Keep Up Her Fight for Admission to University.

BERKELEY, Feb. 9.—Miss Z. Rosemond Hart, history teacher in the Washington Introductory High School, declared today that she intends to keep up her fight for admission into the University of California. She is a student in education, without submitting to vaccination.

"I have received an offer of support from the California Anti-Compulsory Vaccination League, but I shall fight it out alone," declared Miss Hart with much spirit.

"I will ascertain tomorrow morning whether Dr. Lange's case meets whether I am to be admitted, and enabled to obtain credit so that I may secure a degree and a better position as teacher."

"When I called his attention to the inconsistency of his mingling regularly with the regular students and at the same time claiming that the financial students he desired that he meant to put into that matter and put a stop to such attendance."

ADD TO SUM BOUGHT.
When Neph Greenfielder filed his suit against the Bank of Germany several weeks ago, claiming that the bank had stolen his money, he was not aware that the bank had already paid him \$16,722.28 as compensation for having lost stock at the bank.

But it would seem that the matter could not be settled with any certainty even in this way, because if the plaintiff's contention is sustained, the very first violation of the provision of the Constitution in question worked, ipso facto, a forfeiture of the franchises and property of the corporation to the municipality in which the wrong had been done, and an adjudication at the suit of the plaintiff corporation that the property of the defendants had been forfeited to such municipality would not be binding upon any other municipality.

NOT CONTEMPLATED.

But it would seem that the matter could not be settled with any certainty even in this way, because if the plaintiff's contention is sustained, the very first violation of the provision of the Constitution in question worked, ipso facto, a forfeiture of the franchises and property of the corporation to the municipality in which the wrong had been done, and an adjudication at the suit of the plaintiff corporation that the property of the defendants had been forfeited to such municipality would not be binding upon any other municipality.

WOULD BANKRUPT CITY.

Suppose, for example, that the forfeiture occurred in the city of Emeryville, and that it should be adjudged that the forfeiture had in fact occurred, and that, ipso facto, the properties of the corporation had been forfeited to the city of Emeryville. If the contention of the plaintiff is correct, then the city of Emeryville would be compelled to furnish the city of Oakland, the city of Berkeley, the city of Alameda and the city of Piedmont, and probably other municipalities in the county, with water at such legal rates as might be fixed by those municipalities. If those municipalities should fix water rates at an unreasonably low figure, lower than the city of Emeryville could afford to supply the water, then its only remedy would be to sue the other municipalities to have it adjudged that the several ordinances fixing the rates were void. The expenses of such a suit might well bankrupt the little city of Emeryville.

It is claimed on the part of the plaintiff that if the plaintiff is correct, the defendant corporations are forfeited to the city of Oakland, then it becomes the duty of the city of Oakland to supply the water to the other municipalities and the inhabitants thereof now supplied by the defendant corporations, and that seems to be the law as established by the Supreme Court of this State in the case of South Pasadena vs. Pasadena Land etc. Company, 152 Cal. 572, 99 P. 2d 1011, 1012, 1013, 1014, 1015, 1016, 1017, 1018, 1019, 1020, 1021, 1022, 1023, 1024, 1025, 1026, 1027, 1028, 1029, 1030, 1031, DISTRICT ATTORNEY TO HAVE TALK WITH RUEF

Meeting Planned for Late Today or Tomorrow; Law to Be Discussed

(Continued From Page 1.)

suppose I can't because I wouldn't be allowed to go to see them, and many of them haven't the time to come and visit me. So the telephone has got to do its work and I am going to begin right now. "I haven't had a chance to look over that new law yet, and I have had no further consultation with Attorney Fickert, but when I am fully informed of the facts I will be in a position to say something regarding the present situation."

VISITORS ARRIVE.

Other visitors came, the telephone rang, and Abraham Ruef proceeded to be a busy man.

District Attorney Fickert returned at midnight from Visalia and this morning was in his office bright and early.

"Owing to my absence I have had no further opportunity of seeing Ruef," he said. "I hope to have another interview with him either late this afternoon or early tomorrow morning."

some time tomorrow. The trial has gone over until Tuesday and as the jury has not yet been obtained we really have some time yet. I think undoubtedly that Ruef will try to have all the indictments standing against him dismissed, and undoubtedly we shall have some sparring around."

The situation of Abraham Ruef regarding his imprisonment in San Quentin, his desire for parole and his position as star witness in the trial of Eugene E. Schmitz is somewhat unique.

Ruef, his friends, and a good number of the prominent citizens of this community, have been desirous of his being liberated on parole, first because of his plan to aid ex-convicts, his demeanor as a prisoner, his philanthropic tendencies and because of the fact that he has been the only one indicted during the trial of Eugene E. Schmitz.

With Ruef yesterday was his little niece, child of the sister who died as the prison gates closed on him.

In connection with section 1324 of the penal code, which bears upon the testimony of Ruef in the trial of Eugene E. Schmitz, it is stated that it may not be made to apply with reference to any of the indictments returned in the so-called graft prosecution.

The statute was passed in 1909, two years after the finding of the indictments. It is held, therefore, that this is an ex-post facto situation and therefore the law will not apply to charges originating prior to its passage.

to suffer. He cannot be released on parole while four score indictments stand against him in the criminal courts of this city and to obtain the dismissal of them is his hope and desire.

If he testifies at the trial of Eugene E. Schmitz, lawyers believe that under the new provision, Section 1324 of the Penal Code, the indictments against him will automatically be dismissed as the evidence cannot be used against him after he has himself turned state's witness. However, this would apply only to the so-called graft cases, on one of which Eugene E. Schmitz is being tried. The trolley, the Park Side Realty franchise, the light trust and the other indictments would not be affected by Ruef's testimony in the gas cases, and so it is believed that during the next few days and weeks, Abraham Ruef will do his best to obtain from Superior Judge Lawlor and "Dum" the dismissal of the accusations against him in return for telling all he knows at the trial of Eugene E. Schmitz, and because he has already been in jeopardy and has borne the humiliation of incarceration in a penal institution.

Exquisite Loveliness of Hair and Skin

(Annie Bly in The Realm.)

"The exquisite loveliness of English girls' complexion can be gained by American women who take the same care. Instead of powder and paint, use a simple lotion made at home by dissolving an original package of mayatone in a half-pint of witch hazel. Apply in morning, rubbing gently, and your complexion will be as clear, soft and satiny as a baby's—with no dark or muddy discolorations.

"Abundant and glossy hair follows continued dry shampooing. Wetting takes the life out, and makes hair brittle and colorless. Put a cupful of cornmeal in a fruit jar, add an original package of thorot, shake together, and you have a six months' supply of shampoo powder. Sprinkle a little on the head and brush out well. Do this every week or two and your hair will be bright, fine and wavy.

"Don't neglect a cold. You must be well to look your best. Remember, colds lead to chronic catarrh. The best remedy for colds, catarrh, sore throat, croup, etc., is Mother's Salve. It is wonderfully healing."

MAN OF AFFAIRS KILLS HIMSELF

President Ballard of Phoenix Gas and Electric Co. Is a Suicide.

PHOENIX, Ariz., Feb. 9.—A. W. Ballard, president of the Phoenix Gas and Electric company, committed suicide at the office of the company last night by shooting himself through the heart with a .38 Smith & Wesson revolver. Ballard was 48 years old. He had been a sufferer from asthma and gallstones for some time. He was found dead, sitting upright in his chair by the side of his desk. Ballard had been a member of the California club in Los Angeles and was formerly connected with the General Electric company of California. He was born in London, England, April 20, 1885, and came to California in 1910, representing the General Electric company in San Francisco and Los Angeles, and having general charge of their affairs on the Pacific coast. Upon completing 20 years of service he retired to take active charge of the public utility properties in which he was associated with his father and brother.

He is survived by his widow, one daughter, his father, W. E. Ballard, and two brothers, Russell H. of this city and Charles C. Ballard of New York, and three sisters.

MISSING MAN FOUND DEAD.

SANTA ROSA, Feb. 9.—Samuel McCune, inmate of the county hospital, aged 81 years, was found dead in the hills back of that institution yesterday morning. The body was discovered wedged between two large rocks, where he had fallen. McCune had been missing since last Saturday.

SAGE TEA DARKENS THE HAIR AND RESTORES COLOR TO GRAY HAIR

Cures Dandruff, Stops the Hair from Falling Out and Makes It Grow.

There is nothing new about the idea of using Sage tea for restoring the color of the hair. Our grandmothers kept their hair dark, glossy and abundant by the use of a simple "Sage Tea." Whenever their hair fell out or took on a dull and faded or streaked appearance, they made a brew of Sage leaves, and applied it to their hair with wonderfully beneficial effect. Nowadays we don't have to resort to the old-time tiresome method of gathering the herbs and making the tea. This is done by skillful chemists.

PHILANTHROPISTS GIVEN CHALLENGE

Court Wants Someone to Care for Each of the 300 Unfortunates.

CINCINNATI, Feb. 9.—Police Court Judge Arthur Frick issued a challenge today to preachers, business men and women of Cincinnati to prove in a practical way how much they care to assist in helping unfortunate men and women who have come before the bar of his court. Judge Frick called for one hundred representatives of each class he named, each person to be responsible for one man or woman to be taken from the Botsam and Jetsum of the police court. The 300 wards of the court are to be supervised personally for a year and to be supplied with clean clothing, a place to live and given positions which will enable them to support themselves in a self-respecting manner.

NINE-STORY HOTEL OPENS IN PORTLAND

PORTLAND, Or., Feb. 9.—The new hotel Multnomah nine stories high and covering an entire block 200 feet square, was formally opened at noon yesterday when Mrs. Roy Yates, wife of the secretary of the R. R. Thompson estate, which built the hotel, broke a bottle of champagne on the festal floor, saying: "In the name of the R. R. Thompson estate I christen this Multnomah." At the same moment the great doors swung open and simultaneously a cluster of brightly-colored balloons were released from the roof of the building and one of the balloons carried aloft the key of the hotel, signifying that as long as the doors may hang on their hinges they will never be locked.

GINGER JAG IS LATEST ON LONG, LONG LIST

TULARE, Feb. 9.—That the restrictions of a "dry" town lead tipsters to indulge in some strange beverages was shown when Ed Vickers, a bartender here, was arrested on a charge of drunkenness. He told the officers that his intoxication had been acquired through the mixture of Jamaica ginger and lemon extract. Vickers stated that he had drank two four-ounce bottles of the ginger and a small bottle of the extract. His condition showed that the beverages were effective, if somewhat strenuous for the average palate. He was fined \$10.

RE-ELECT OLD OFFICERS.

SACRAMENTO, Feb. 9.—The California Fruit Distributors, through which practically all the California deciduous fruits are shipped to market, has re-elected its former official board as follows: President, Frank H. Buck of Vacaville, vice-president, C. B. Ellis of Sacramento, second vice-president, C. E. Davis of Sacramento; treasurer, H. A. Fairbank of Sacramento, directors, G. M. Hartley of Vacaville, George D. Kellogg of Newcastle, George H. Anderson of San Jose and W. J. Wilson of Newcastle. Secretary and manager, F. B. McKee-vitt of Vacaville.

50 GIRLS TO STUDY DOMESTIC SCIENCE

VALLEJO, Feb. 9.—Nearly fifty girls, more than one-fourth of the enrollment of the Vallejo high school, are to study for the domestic science class, which will be started this term. The apparatus has been installed, the quarters have been pronounced models and all that remains is the selection of a competent teacher. This appointment will probably be made at the next meeting of the board of education.

SAN RAFAEL LAWYER FEARED DEAD IN MEXICO

SAN FRANCISCO, Feb. 9.—That James W. Keys, a prominent attorney of San Rafael, former member of the Senate of that city and a member of the Democratic State Central Committee, has been either killed or imprisoned by the revolutionaries of Mexico is feared by his friend and law partner, Assemblyman George H. Harlan.

Before the present troubles in Mexico became so pronounced Keys left for the Pro-see of Tepe on legal business connected with certain mining interests. Since his departure Mexican has received word from him nor have his other numerous friends or members of his family.

NO "NIGHTIE" FOR LAWYER.

OMAHA, Feb. 9.—Sawyer, between Omaha and New York Samuel Undermyer, New York lawyer, is traveling without a nightshirt and with no change of linen. His personal effects are following him on a later train. The loss of his nightshirt is said to be the result of a joke played on him by fellow lawyers with whom he has been trying a case in Lincoln, Neb.

Believes This Will "Cure Lung Troubles"

that is one of its chief dangers. Those who have it are rarely willing to acknowledge the fact. It is no time to trifling. Don't waste time in argument. If a so-called "cold" has long persisted, a cough is present, or if you are anxious, or any of the symptoms are present such as fever or night sweats, weakness and loss of appetite, and perhaps some running of mucus—do the sensible thing, take Eckman's Alternative, as Mr. Bettendorff did.

"Gentlemen, I wish to say for your Alternative that I believe it to be a medicine of unequalled value for all Bronchial."

"The Spring of 1908, I had a severe cough for six months. I tried all the medicines that my friends and doctor recommended to me, but no results came for the better. I had night sweats, and would cough and spit up every night. I was in a state of great distress. I had been told that Eckman's Alternative was a good medicine. I bought a bottle and took it. I felt a change in my condition, and after I had taken several bottles I felt as well as ever in my life. I never wrote any firm or company a letter recommending their medicine before, but there are so many people who take it and find it so good, that I feel it my duty to say so. I don't get credit or even tried."

I desire the world to know that I firmly believe that your Eckman's Alternative will cure any case of lung trouble. If taken before the last stage, I will gladly write personally to any party wanting information in regard to your wonderful medicine. (Signed Affirmative) A. C. BETTENDORFF.

Eckman's Alternative is sold in all drug stores. Ask for it by name. It is a small, neat, white bottle, with a red label. It is not a cough syrup, but a powerful lung medicine. It is the only medicine that will cure lung trouble. It is the only medicine that will cure lung trouble. It is the only medicine that will cure lung trouble.

WINDSOR LOCKS, Conn., Feb. 9.—Examination of the books of the closed Windsor Locks Savings bank has thus far shown that A. W. Converse, former treasurer, left \$38,000 unaccounted for from 1871 to 1921. That sum with interest would make the loss to the bank approximately \$125,000. The books have still to be gone over for twenty years more. Experts, however, declare they believe the bank is solvent.

The Fight on the Beet Sugar Industry.

The attack on the beet sugar industry has been brought home to the people of California, to the very doors of the producers of Alameda county. Why the big refiners are demanding that foreign raw be admitted into this country free of duty is explained by the letter of Mr. John L. Howard, which is printed in another column.

While the Hardwicke Committee of the House of Representatives was investigating the American Sugar Refining Company (the Trust) the officers of that concern testified that they wanted the tariff taken off raw sugar because it would kill the domestic cane and beet sugar industries and make better business for the refining companies. This was corroborated by the officers of the Federal Sugar Refining company, the National Sugar Refining company and Arbuckle Brothers.

For example, we quote from the testimony given by Charles R. Heike, secretary of the American Sugar Refining company (the Trust):

Mr. Fordney (of the Committee). Now, if the duty were removed absolutely on sugar could we produce either cane or beets in this country?

Mr. Heike. I doubt it very much.

Mr. Fordney. Then that would destroy the industry absolutely in this country?

Mr. Heike. Yes.

Mr. Fordney. And you approve of that?

Mr. Heike. Yes.

(Part 4, 292 of Hearings.)

Take also the testimony given by Edwin F. Atkins, Vice-President of the Sugar Trust:

Mr. Hinds. So that a reduction of the tariff passing beyond a moderate amount would tend to the prosperity of the refiners and to the detriment of the beet-sugar people?

Mr. Atkins. Take the independent refiners, outside of our concern at all, that represent more than half the supply of the United States. They say, and I think they say truly, that it is for the refiners' interest to have a low rate of duty rather than a high rate of duty, and reduce the basis of value upon which they can sell. The lower the price of the refined sugar the greater is the consumption. I think their position is well taken. (Part 2, page 174 of Hearings.)

And this extract from the testimony of Claus A. Spreckels, president of the Federal Sugar Refining company:

Mr. Hinds (for the Committee). In other words, perhaps you would take it the tariff, all off, and have free trade?

Mr. Spreckels. I would have free trade.

Mr. Hinds. You would have free trade in sugar?

Mr. Spreckels. Absolutely. (Part 27, page 2277 of Hearings.)

And this from the testimony of William Gilmore, of Arbuckle Brothers, sugar refiners:

Mr. Madison. In other words, you think the thing to do is to take off the duty, and that it would be to your advantage to take it off as a refiner of cane sugar?

Mr. Gilmore. Yes, sir.

Mr. Madison. And you would advocate the taking off of the duty?

Mr. Gilmore. I would personally. I am only speaking now personally. (Part 14, page 1169 of Hearings.)

This extract from the testimony of William R. Jamison of Arbuckle Brothers:

Mr. Raker. How would it affect you if there was no tax on the importation of sugar—raw sugar?

Mr. Jamison. I think it would enable us to run more constantly.

Mr. Raker. What do you mean by that, now?

Mr. Jamison. To keep up the capacity.

Mr. Raker. Will you explain it?

Mr. Jamison. I mean we would be able to sell more sugar.

Mr. Raker. Do you not have a supply all the time?

Mr. Jamison. Well, we are not able to run full at all times.

Mr. Raker. Because of the way raw sugar is shipped into the United States?

Mr. Jamison. Oh, no; on account of the beet product. If there was no duty, I do not think the beet would be so prosperous, and we would probably sell more sugar. If the duty was removed, I mean to say * * *

Mr. Raker. * * *. What would you think would be a fair compensation? (Reduction.)

Mr. Jamison. I think there should be a cent a pound taken off at the present time at least; and later—

Mr. Raker. A little more?

Mr. Jamison. Yes; until it is entirely removed. (Part 14, pages 1195-96 of Hearings.)

Here we have the frank admission made by the importers and refiners of foreign sugar that they want the duty removed, because the domestic beet sugar industry will be killed off if deprived of tariff protection. The absence of domestic competition will give the refiners complete control of the market and enable them to make more money. Incidentally, the removal of the sugar duty will deprive the government of some \$60,000,000 annual revenue in addition to destroying the cane business of Louisiana and Texas and the sugar beet industry of California, Colorado, Kansas, Nebraska and Michigan.

Yet these same men have the hardihood to ask that a duty be imposed on refined sugar. They would destroy the home producer and protect the refiners of the foreign product.

There are seven beet sugar factories in California and many thousands of acres devoted to beet culture, representing an investment of millions of domestic capital, and the refiners coolly ask Congress to destroy this prosperous industry, and the capital invested in it, that the refining companies (who are in a combine) may pay larger dividends on watered stock. A more audacious and sinister proposal was never presented to an intelligent people. Its unfair and evil purpose is admitted. Reduced to simple terms, it is that the domestic beet and cane industries be destroyed to give the combination of refiners a complete monopoly of the American sugar market. Such a combination would be intolerable. It is what the people have been fighting for some years to free themselves from. It is a bold proposition to slaughter independent competition and a flourishing domestic industry and surrender the whole country into the hands of a predatory trust combination.

"Roosevelt will not ask for the nomination," says Gifford Pinchot. Oh no, he will let Pinchot, Jimmie Garfield, William Allen White, Chase Osborn and Bill Stubbs of Kansas do the asking for him. This bunch of noisy patriots are sounding the call of the whole people in the ears of Buena Tumbo.

GENUINE JOY

—BY THE OAKLAND TRIBUNE CARTOONIST.

A Call for a Third Party.

The Philadelphia North American wants a third party. To form this third party it suggests a union of the Bryanistic element of the Democratic party with the Republican insurgents. Such a coalition would be neither incongruous nor impossible, since Bryan has been furiously suggesting and La Follette, Cummins, Bristow and Bourne have apparently been shaping their course.

However, the Solid South would have none of such a combination, and it would have no chance in New England and the great Middle States.

Behind such an organization would be the old Greenback element that followed the late General James B. Weaver of Iowa and later gathered under the People's Party banner. The bulk of this following lined up behind Bryan in 1896, but Maryland and Kentucky broke away from the strange alliance and the great Middle States voted overwhelmingly against it.

The elements which the North American hopes to fuse into a third party have twice before been fused, but have never been able to muster a majority, even in alliance with the Democratic organization. They would have no chance to win independently, for the reason that a vast majority of the voters are opposed to their vagaries and methods.

Not only are the theories unsound, but their outlook on national life is hysterical and colored by emotional phantasy. Extravagant in their views and intemperate in expressing them, they are impatient of restraint and the discipline of organization, and cannot agree among themselves. Unable to agree upon a constructive policy, or compose differences among themselves, there is no principle of cohesion among them. They are all statesmen and leaders, and only agreed upon one thing—opposing party authority and the processes of orderly government.

Russia is in a sweet pickle. She has more sugar than she can use and is seeking a way to get rid of the surplus. An enormous beet crop last year, coupled with a surplus of 137,000 tons left over from the previous year, has given an available stock of 2,500,000 tons. By agreement with Germany and France, Russia is obligated to export no more than 200,000 tons in any single year. Allowing for home consumption and an export of 200,000 tons, Russia still has a surplus of 600,000 tons to be disposed of. What to do with it is a problem that is puzzling the Russian Government to solve. The problem is one of the evil results of paternalism. A prohibitive tariff keeps foreign sugar out of Russia, and by treaty engagement the government restricts exportation of a domestic surplus. A condition has resulted that threatens Russian beet growers and sugar refiners with irreparable loss.

Democratic economy is illustrated by the antics of the Bourbon majority in Congress. In caucus the Democrats voted not to vote any money at this session to erect public buildings, build more warships or improve rivers and harbors, but they are ready to vote money to maintain antiquated and worthless army posts and useless navy yards. The army posts in what was formerly the Indian country long ago ceased to have any reason for existence, and their maintenance entails a useless expense. Half a dozen of the navy yards on the Atlantic coast are obsolete and worthless. Yet the Democrats will vote money to maintain these barnacles on the military service, but not for any useful constructive purpose.

"Deeper grows the Moore mystery," exclaims a San Francisco paper. There is no Moore mystery, only a vulgar and prurient curiosity to know where Mrs. Moore was between the time she left the house at 2 o'clock and the time Moore was shot. There is no mystery as to how and why Moore was shot. As Mrs. Moore is a woman, public opinion believes the worst of her and assumes that she went on some evil errand when she left the house.

Twenty Years Ago Today

Phil M. Walsh was this morning so-painted stenographer of the police court by Judge Ogden. This settles a fight that has been going on ever since Colvin was murdered. Walsh is quite a young man and is a resident of West Oakland. He has been engaged in the newspaper business for some years past in this city.

Captains of Police Wilson and Fletcher, accompanied by Officers Banks and Aldrich, paid a visit to Chinatown last night in plain clothes. They succeeded in arresting five Chinese who were engaged in the seductive game of fan-tan. J. H. Smith is spending a few weeks in the country. Rev. J. K. McLean of the First Congregational Church, is in Los Angeles. A. R. Wilson, a deputy in the City Engineer's office, left Monday for Portland, where he will remain a week. Mrs. L. C. Loderback, president of the Alameda Flower Mission, and Miss Hatfield Newman, are visiting friends in San Jose.

The Fire and Police Commissioners yesterday appointed W. H. McCremon a special officer to take the place of Officer Cole, who goes East on a six months' vacation.

The Lakeside Committee of Consolidation met with the East Oakland committee on Monday evening at the residence of Adolph Uhl on Sixth avenue. The Lakeside committee is composed of H. H. Haight, Sam Brock and Charlie Comstock. The East Oakland committee by Adolph Uhl, George H. Mason and C. A. Culver.

The Oakland Consolidated Electric Road Company will commence work immediately on its cross-town road. Vice-President McElrath says that the ties and rails are on the ground. Trolley wires are also being put up for the rapid transit line to Mountain View cemetery, and it is expected cars will be running next week from the turn-out at Grace and Fourth streets.

The Beckwith Lumber and Canal Company has been incorporated with a capital of \$3,500,000. On the amount \$5000 has been subscribed. The object is to acquire, sell and lease water rights and engage in lumbering. The directors are: Major M. C. Chapman, W. E. Greene, G. McAlister, W. F. Redington and M. V. B. Walton.

There is no longer an excuse for a bad sidewalk in Oakland. Let the work of replacing rotten planks with smooth and substantial cement be pushed until Oakland shall have obtained the reputation of one of the best sidewalked cities in the world.

ALONG BYWAYS

Indications are that Senator La Follette will not vote for President this year, since his vote appears to be pledged to himself.—Albany Journal.

Governor Wilson is probably willing to admit privately that a flagrant exhibition of ingratitude may be even more hurtful to a candidate than the support of Harper's Weekly.—Kansas City Journal.

Democrats who want to read Governor Harmon out of the party will please note the fact that Senator La Follette is beginning his campaign in Ohio and that the President of the United States is booked for a speaking tour there in January. A bold, bad man that Harmon! He has made a lot of trouble.—St. Louis Republic.

JAPANESE PAPER

Next to the cotton spinning, the production of paper is Japan's greatest industry. Centuries before Occidental peoples learned to manufacture paper from rags it was being made in China from actual fibers. From China this art was carried to Europe through Central Asia by the Arabs.

Egyptians are considered to have been the first paper makers, says "Circular and Trade Reports," but their paper was not real paper, but merely the peeled bark of reeds growing on the banks of the Nile. The material for making paper first employed by the Chinese was the so-called paper mulberry bush, which is known as kozo in Japan.

The value of the annual production of Japanese machine equipped mills is about \$7,500,000, and that of the hand mills reaches \$3,000,000. In 1909 there were 27 factories with 182 machines for the production of "European" paper in operation in Japan, and these had a total of 6488 employees. The quantity of European paper produced by these mills in 1909 amounted to 122,947 short tons. As a result of the erection at Tomakomai, on Kokuetsu Island, of a news-

paper factory whose daily output is 65 tons, the amount of machine-made paper has recently shown a remarkable increase. An American was engaged to superintend the erection and starting of the machines in the mill. His success induced the company to engage him further in reorganizing other mills which it owns in Central Japan.

Although native paper has been made from ancient times, it was not until 1672 that the manufacture of European paper was commenced. In that year the Oji paper mill was established, which uses rice straw, rags and waste paper. After the Saigo rebellion in 1877 a great demand was created for European paper by the rapid adoption of printing in Japan.

Printing paper is the most important kind manufactured, and its total annual value is \$3,202,000. The next in importance is cardboard with a total value of \$605,000. Wholly with hand machines in rural districts affording an abundant supply of pulp, European paper is manufactured in large cities like Tokio, Osaka and Kobe.

ENGINEER GOES OVERBOARD WHEN FUEL SUPPLY GONE

VICTORIA, B. C., Feb. 9.—News was brought by the Canada Maru today of the arrival at Yokohama of the Toyo Kisen Kasha steamer Kiyo Maru from South America without fuel. The steamer, of 17,000 tons, encountered heavy weather after leaving Yokohama and when 300 miles from Yokohama the coal supply gave out. Chief Engineer Yamashita committed suicide, leaving a note stating that he did so to atone for his fault in allowing the vessel to run short of fuel. He jumped overboard.

ALBERT PARKES DIES AFTER EVENTFUL LIFE

NEW YORK, Feb. 9.—Albert L. Parkes, for more than fifty years a theatrical manager and writer, is dead of a complication of diseases at his home here. He was 55 years old.

Parkes entered the life of the stage in 1859 as manager of the Nelson Sisters Burlesque company. Later he was associated with Barnum. As manager of the famous Wood's Museum in New York, he presented the Cardiff giant sensation. For many years he was a stage folk as "the best dressed man on Broadway."

PLEADS GUILTY AT STOCKTON. STOCKTON, Feb. 9.—G. M. Parker, an insurance solicitor, representing a Philadelphia life insurance company and well known in this city, pleaded guilty of embezzlement before Judge C. W. Norton. At his request sentence will not be pronounced before next Tuesday. Parker embezzled various sums aggregating \$15,000 from local policy holders. He admitted being an ex-convict.

FATHER AND SON HAD BAD SKIN TROUBLES

Father's Eczema on Hands and Wrists. Not Able to Work for Six Months. Son's Trouble on Face and Neck. 'Cuticura' Cured Them.

Davenport, Wash.—"Two years ago when I was in Great Falls, Montana, I got eczema. At first there were only a few little red pimples on my hands but after a week my hands and wrists were covered with them, and after two weeks they had developed into a bad case of eczema. I could hardly stand it and I hardly dared to go to sleep at night for fear of scratching. I tried ammonia salve, carbolic salve, and a number of others, but they all did not do me any good, and at last I made up my mind that there was no cure for me. I was not able to work for six months. I got a cake of Cuticura Soap and a box of Cuticura Ointment. After using Cuticura Soap and Ointment for a week I saw that they were doing me good. In three months I was completely cured, and there is no sign of the eczema returning. My son was cured of skin disease through Cuticura Soap and Ointment." (Signed) Andrew Hanson, Sept. 28, 1911.

His son, Mr. Carl Hanson (also of Davenport), writes: "I got skin disease and it was all over my face and neck. Sometimes it seemed just as if I would go crazy from the itching and at night I could not sleep. At last a friend told me to get Cuticura Soap and Ointment. After using them a few days I saw I was going to get better. Cuticura Soap and Ointment completely cured me of my skin trouble." (Signed) Carl Hanson, Aug. 29, 11.

Cuticura Soap and Ointment are sold everywhere. Sample of each mailed free, with 22-p. book. Address: "Cuticura," Dept. T, Boston. Tender-faced men should share with Cuticura Soap Shaving Stick.

FRANKLYN UNDERWOOD GETS AN ENTHUSIASTIC GREETING

Plays Lead With Mrs. Carter in 'Two Women'

Frenchy Play Received Well by Oakland Audience

(By LEO LEVY.)

HERE was a deal of applause at the Macdonough theatre last night when Mrs. Leola Carter brought "Two Women" to the city for inspection. Much of the acclaim was for Franklyn Underwood and Frances Slosson, there was a lot of it for the star's emotional fireworks and even the play came in for ecstatic handclapping. Everybody and everything present deserved loud and vigorous commendation for they worked hard and shed many tears and acted all over the place. And then there was an opera house scene in the Bal Tabarin that delighted the eye and shocked the low-necked purity brigade. In fact, there was every excuse for blistering scented palms and bending forward in open-mouthed, tearful sympathy. It was an evening of applause.

"Two Women" is an unimportant play and a very Frenchy play. Rupert Hughes adapted it from the Italian of T. Gicconi, whoever that may be. There is nothing of the Italian left, but we still have the little house in the country to which comes the courtesan in search of her soul, the which brands the drama strictly of the French school, whether its name is Gicconi or something else. Avertin fame crowd the thing, however, to the extent of injecting into Jeannine's conversation something that sounds suspiciously like Irish-American banter.

RETAINS POWER.

Mrs. Carter retains her old power of compelling the auditor to hang on her words and to follow her about the stage, despite the presence of others and the darning of stage decoration. But, one mourning the dulling of the keen edge that once characterized her art. There is only husky music in her voice and her emotionalism is often recitative, sometimes declamatory, and even dangerously near the strident.

Rant, Mrs. Carter never did and no one ever accused her of it. She retains the ability to strike from it and as a consequence still pleases with emotion that sometimes is husky.

In "Two Women" she is, first, Jeannette Moreau, a seamstress, wife of Count de Marcy, a man who squandered two fortunes. In his poverty he meets and weds the seamstress and the two struggle for very life. Jeannette dies just as Remi comes into money.

Through a friend he hears of a woman in Paris who bears a remarkable resemblance to the dead. He finds her a courtesan in the Bal Tabarin, prevails on her to pose for an unfinished picture of his wife and through his own cleanliness and the memory of what his wife was, awakens in her a desire to begin life over.

Love springs up between the two, passes through the fires of temptation and jealousy and comes out strong in act. The last, when Jeannette gives herself to Remi, blinding him from the effects of a wound sustained in a duel with the woman's former paramour.

UNDERWOOD COMES HOME.

Franklyn Underwood came home, last night, and it was a homecoming that must have made him glad he was an Oaklander and his friends were here. For two minutes after his appearance the applause was deafening. It took the actor off his feet and left him breathless. Mrs. Carter, pleased at the reception accorded her leading man in his own city, removed his hat for him, bowed his head to him and frankly smiled her delight at the applause.

It was several minutes after the audience allowed the play to proceed before Underwood had recovered his poise. Oakland he knows as a city loyal to its own but he had not counted on as wonderful reception as he got. He was recalled many times after his big scenes, forced to smile and bow and smile again and it was not until he appeared hand in hand with Frances Slosson, his wife, that the audience was satisfied.

At the Liberty in Oakland and the Macdonough, across the bay, Underwood was a favorite for two years. He received practically all of his best training in this city and was enthusiastically aided by a host of friends he made by personality and talent. When he left for the East it was with the well-wishes of hundreds. His return to Oakland as leading man for an act of international reputation, a finished artist and near the top rung of the theatrical ladder, gratifies those who predicted fame for him when he first started to climb.

As Remi, Franklyn Underwood displays

FRANKLYN UNDERWOOD and FRANCES SLOSSON, old Oakland favorites, who return in "Two Women."

a repression that places him well on the way to stardom. The man of the Frenchy play has a wonderful chance to make something genuinely asinine of himself. Underwood, clearly recognizes this and is careful to avoid the pitfall of overacting. His big scene with Jeannine, in the latter's home, is well worked up and played with a desire for realism rather than for effect. Much weeping and shouting and gesticulating is always effective in these Du Barrys and Zazzas, but it is not acting that leaves a hangover and a bad taste in the mouths of the audience. Underwood has reasoned it out and makes of Remi a man with flesh, blood and a temperament. He might have been a roaring piece of mechanism that splattered against immortality and spilled sermons all over the stage.

Frances Slosson, whose portion is a small one as Miss Gicconi, displays also a careful training and hard study. She was accorded a welcome last night that must have warmed her heart and lived memory. "Two Women" is a typical Cort production, well-staged, well-cast and well-acted. It is being played at a matinee this afternoon and will close with a performance tonight.

FRECKLES

Now Is the Time to Get Rid of These Ugly Spots.

The woman with tender skin dreads February because it is sure to cover her face with ugly freckles. No matter how thick her veil, the sun and winds will surely make her freckle. Fortunately for her peace of mind, the recent discovery of a new drug, othine—double strength, makes it possible for even those most susceptible to freckles to keep the skin clear and white. No matter how stubborn a case of freckles you have, the double strength othine will remove them. Get an ounce package from Osgood Brothers and banish the freckles. Money back if it fails.

NEW FREIGHT RATES IN EFFECT JUNE 25

Interstate Commerce Commission Delays Putting in Force Revised Class.

WASHINGTON, Feb. 9.—A new western classification of freight on which the western transportation lines worked for many months and which recently was filed with the Interstate Commerce Commission was ordered by the commission to be suspended from February 15 to June 25. The proposed classification contained hundreds of changes, resulting in many advances and some decreases in present rates. Naturally rates would be affected by the new classification not only in western territory, but throughout the country, on all freight originating in or destined to points in that territory.

A hearing on the proposed classification was held in Chicago on January 9, but it was found impossible by the commission to complete the work before the effective date, February 15. Advances in freight rates proposed by transcontinental railroads were suspended by the commission from February 25 until August 25. It was found impossible to conclude the inquiry within the time originally fixed by the commission. The commission ordered a general investigation of the practice of transacting business with respect to the issuance of passes, freights and free transportation service. Information has reached the commission that many carriers are violating the law in that regard.

Indications are that the offending carriers may be obliged to face prosecution.

GET EXCUSED FOR KILLING. SILVER LAKE, Cal., Feb. 9.—A coroner's jury exonerated Deputy Sheriff Reader and Bulck, who shot and killed C. E. Shaffer, who resisted arrest and who, with a woman named Wilson, had opened fire upon the officers. Mrs. Wilson was instructed to leave this section within 24 hours or submit to prosecution. The woman is reported to have chosen the former alternative.

Mrs. A. R. Tabor, of Glendale, had been troubled with sick headaches for months when she began using Chamberlain's Tablets. She has taken two bottles of them and they have cured her. Sick headaches is caused by a disordered stomach for which these tablets are especially intended. Try them, get well and stay well. Sold by Osgood Brothers.

Hughes, Mr. and Mrs. Franklin N. Dewey, Mr. and Mrs. Ernest Porter, Mr. and Mrs. John Ralph Wilson, Mr. and Mrs. Charles L. Davis, Mr. and Mrs. Albert Vallada, Mr. and Mrs. Charles Gibbs, Miss Teresa Bruntsch, Miss Alexine Mitchell, Miss Hazel Holt, Miss Ruth Holt, Miss Laura Sargent, Mrs. Alice Haight, Miss Margaret Carpenter, Miss Pauline Smith.

WEDDING OF NOTE.
A marriage of much interest to leading families around the bay is to take place next week in St. Paul, Minn., the wedding of Mr. Robert Howard Smilie of this city and Miss Florence Lucia Buck of Minneapolis.

Mr. Howard Smilie is the only son of Mrs. Mary Smilie and the late Robert Smilie, the latter formerly a well-known capitalist of this city. The large Smilie home on Telegraph avenue is one of the important homes of Berkeley and the Smilie family has always been prominent in a social way. Mr. Howard Smilie has carried on in a very admirable manner the affairs left by his father's large business interests.

Miss Florence Buck is the daughter of Mrs. Flora Willey Buck of Minneapolis, and she comes from a well-known family of that city. She is a very charming girl, whose delightful personality won for her many friends during her visit to California.

The charming bride-elect is a sister of Major Carroll D. Buck, U. S. A., stationed at Alcatraz. It will be remembered that some months ago Major Buck married Mrs. Janet Shorn White, one of the social leaders of San Francisco.

Mrs. Frederick B. Fancher of Sacramento is Miss Buck's sister. Mr. Fancher was formerly governor of North Dakota, and he has been prominent in business circles in Sacramento since taking up his residence there.

The Fanchers and the Smilies had adjoining country homes at Lake Tahoe and Mr. Smilie met the young girl whom he is now engaged when the latter was visiting her sister, Miss Buck, at her home in San Francisco. Miss Buck came to a few weeks ago in Minneapolis and since then she has been extensively entertained, as she is very popular in both social and college circles in St. Paul and Minneapolis.

Mr. Smilie will leave for Minneapolis next Sunday, and the wedding will take place at 4 o'clock Saturday, February 17.

Mrs. Buck has closed her home in Minneapolis and the wedding will take place at the bride's home, at which about twenty-five friends were present.

The couple left last night for San Diego on their honeymoon and will make their permanent home in Los Angeles, where Burns is engaged in the engineering business.

March 12 has been set for the wedding of Miss Rosalie Hamilton and Hugo F. Allard of Bakersfield. The ceremony will be celebrated in the First Christian church, with Rev. Thomas Boyer as the officiating clergyman. About 150 guests will be present at the ceremony, which will be followed by an informal reception in the church parlors.

Mrs. F. O. Wheeler, a sister of the bride-elect, will be matron of honor at the wedding. The bridesmaids will be Miss Freda Nor, Miss Ethel Caldwell, Miss Hilda Butler and Miss Emily Nor. Allard and his bride will reside in Bakersfield, where he is engaged in business.

TO ENTERTAIN HOME GUEST.
Miss Marguerite Doe will be the house guest of Miss Amy Bowles for several weeks.

Mrs. Sanford Sewald is another hostess who has been entertaining informally.

RECEPTION IN SANTA BARBARA.
Letters from Santa Barbara tell of a recent brilliant reception given by Mrs.

MRS. SANFORD SEWALD, who has many friends here and in the towns about the bay—Vaughan & Fraser, Photo.

D. T. Perkins for her niece, Mrs. S. B. Raymond of Akron, O.

More than 200 guests were bidden to the affair, which was beautifully appointed with flowers and a buffet table with an amethyst necklace and other amethyst jewelry.

Mrs. Milo Potter, well known here, was gowned in white beaded chiffon over dark blue chiffon and white satin. Mrs. Raymond was gowned in a dark blue costume with passementerie panels of silver in filigree effect and a necklace of pearls with pendants of blue enamel and platinum studded with diamonds.

Mrs. Perkins was assisted in receiving her guests by Mrs. Raymond and Mrs. Milo M. Potter. The following assisted in serving refreshments: Mrs. S. P. Caley, Mrs. Edwin H. Sawyer, Mrs. Louis Long, Mrs. John F. Page and Mrs. Raymond Brown. In attendance also was Mrs. George Perkins of Akron, O., the mother of the honor guest.

The new palm room is said to be a lovely setting for receptions, lending itself admirably to the purpose. The lighting, too, is especially artistic. During the afternoon hours of the reception the Tandler quartet rendered a program which was much appreciated by the guests. A profusion of violets and California poppies added to the decorative scheme of the palm room and a number of canary birds lent a charming touch with their melodies.

HOSSESSES TO BE.

Mrs. Jacob Jackson will be a dinner hostess at her home in Fruitvale on Wednesday, February 21. For Miss Sue Harold and Fritz Van Sicken. Miss Mildred Drake will give an informal dance on Wednesday evening at her home on Adams Point. The guests will include members of the Delta Delta Delta sorority. The decorations will be typical of the valentine season.

BRIDGE AFTERNOON.

Miss Theo Spaulding was a bridge hostess yesterday at her Alameda home for Mrs. G. G. Green, who is the guest of her sister, Mrs. Fritz Van Sicken. Many social compliments will be given the Eastern visitor.

AT CARD TABLES.

The initial card party of the Claremont Club will be held tomorrow night. There are forty members of this section and card evenings are to be held every Saturday.

Mrs. G. B. O'Brien is chairman of the committee in charge, and will be assisted by Mrs. Walter Wood, Mrs. George Moore, Mrs. A. D. King, Mrs. H. E. Green and Mrs. J. A. Bartlett.

CARD PARTY TOMORROW.

Mrs. C. Irving Gilbert will preside over a card party tomorrow for Miss Irene Orr, bride-elect, and Miss Ruth Wheeler of New York, who is the guest of her sister, Mrs. J. J. Harward and Mrs. R. E. Leckie will include the receiving party.

SHOWER BRIDE-TO-BE.

Miss Kathryn Lydon, the fiancée of James Tosney of San Francisco, was given a shower last evening by Miss Marie Doud at her residence. Violets formed the principal decoration for the occasion. Music was furnished by the orchestra. Later supper was served. Among the guests were: Mrs. T. Doud, Miss Kathryn Lydon, Mrs. Lydon, Mrs. G. B. Doud, Mrs. D. E. Doud, Miss Kathryn Lydon, Miss Agnes Connelan, Mrs. F. Farrell, Miss Martha Roeder, Miss Carrie Engelhardt, Miss Gertrude Brady, Miss Kathryn Connelan, Miss Lucile Dolan, Miss Nellie Lydon, Miss Mae Farrell, Miss Grace Monahan.

The young couple have many friends on both sides of the bay. The wedding will take place before the Lenten season.

LUNCHEON AT COUNTRY CLUB.
Mrs. F. L. Lipman will give a luncheon at the Country Club on Saturday afternoon, when she will claim Miss Charlotte Bledenhach, a bride-elect, for her honored guest. The guest list includes: Mrs. C. L. Bledenhach, Miss Mabel Sadler, Miss Edith Sadler, Miss Elizabeth Craig, Miss Lolla Deane, Miss Catherine Walker, Miss Lolla McKibbin, Miss Mary Higgins, Miss Alice Nickerson, Miss Hazel Clifford, Miss Ina Perham, Miss Grace Ingraham, Miss Ernestine Moller, Miss Mabel Moller, Miss Phyllis Graham, Miss Anna Bledenhach, Miss Elsie Bledenhach.

WEDDING.
The wedding of Henry Newburgh, an attorney of San Francisco, and Miss Miriam Coffey, will take place Thursday afternoon, February 22, at the home of the bride's parents, Mr. and Mrs. M. H. Coffey on Fourteenth street. The ceremony will be simple and only immediate relatives of the bride and groom will be present.

MUSICAL AND RECEPTION.
Mrs. Samuel Cheyne will be a hostess on Thursday afternoon of next week at an informal reception. Her guests will include a number of the members of the Wednesday morning musical club, as well as many of the musically inclined members of the smart set, and an informal musical program will add to the enjoyment of the hour. Among the special guests will be: Mrs. Harry Knowles, Miss Harvey Knowles, Miss L. D. Don, Mrs. Charles P. Hubbard, Mrs. Frederick S. Stratton, Miss Lucy Herrick and Miss Christie Taft.

VALENTINE PARTY.
A valentine party will be held at the home of Henry F. Shreve on Oakland avenue, February 10. Musical games and a valentine box will be the features. Those invited are: Miss Neva Bond, Miss Hazel Dickey, Miss Hazel Wise, Miss Emma Welbourn, Miss Ruth Linden, Miss Louise Nunnemacher, Miss Lucile Vestal, Miss Virginia Hamer, Miss Loretta Palmer, Miss Ruth Barker, Miss E. CAPTAIN FACES COURT MARTIAL.
VALLEJO, Feb. 9.—Captain Ernest E. West, senior Captain of the marines at Mare Island, will face a court martial tomorrow afternoon. The charges against him are the result of a scene on January 10 when West in a drunken rage, carried on in such a manner that he was placed under arrest and ordered to the ward house.

J. M.—The following are the deep breathing exercises. The first thing in the morning and the last thing at night, when you are clad only in your night dress, open your window and stand straight with your back against the wall, fill your lungs, breathing through nostrils, with the mouth closed, until your lungs are able to hold no more. Retain breath while you count four, expel it through the nose, counting seven. Do this five times.

Next stand upright and turn out the toes so that the heels touch.

The Importance of Water to Beauty

(Copyright, 1912, Lillian Russell.)

By LILLIAN RUSSELL

WATER makes up the chief bulk of all animal and vegetable bodies. It gives the necessary fluidity to the blood of the former and the sap of the latter, without which neither could flow nor be distributed to the several tissues and organs. Air deprived of all humidity would cause a rapid and exhausting evaporation, both from the skin and lungs, and reduce the being to the extreme of exhaustion, if not to death itself. That is one thing to keep constantly in mind in connection with our living rooms. Most homes are woefully overheated. Not only does the blood contain four-fifths of its weight in water, but even the parts of the body called solids—that is, the muscular mass of flesh—contain in reality scarcely one-fourth of solid matter, the remainder being water.

Thirst can only be allayed by water. Whenever man is left to the cravings of the instinct of preservation of his frame he snatches water as the only beverage to quench his thirst, cool his system and renovate his decaying strength. The secret of many Grecian beauties may be attributed to the fact that they drank nothing but milk and water and sacredly bathed their bodies in warm water three times each day. We can do no better than to employ pure water as a beverage and pure water as a bath. Bathing, after all, may be considered as the gratification of an instinct common to all living nature. Drink water before meals, between meals and at night. It is God's best medicine for all ills, inside and out. Remember, be profligate in your excesses with water.

Lillian Russell

Place your hands on your hips, the thumbs back in the soft part of the back on either side of the spinal column. Now draw in a deep breath, and force the air down so that you feel the expansion of the lower part of the lungs. Hold the breath while counting four, expel while you count seven. Practice this movement six times.

Next stand upright, head up, shoulders thrown back, arms hanging at the sides. Now gradually raise the arms until they are high above the head. While you are performing this movement, take in a deep breath through the nostrils until the lungs can hold no more. Retain the breath while counting four, then gradually lower the arms and at the same time expel the breath and count seven. Repeat this six times.

Practice deep breathing constantly. Take deep inhalations with the mouth closed, retain the breath a few seconds and exhale

through the nostrils. Lay your hand on the abdomen when you take one of these deep breaths and you will see the flattening effect upon the stomach.

JANET B.—If, as you say, you retire early every evening, there surely must be some internal cause for the dark circles under your eyes. Often it is hereditary, but in my opinion there is always some internal cause for these circles. The external treatment is sometimes effective temporarily, but cannot be permanent while the cause exists. Bathe the eyes in cold water, using friction. Massage with a good skin food is also good. Use the tips of the fingers and massage gently, being careful not to press on the eyeball. Your eyes may be weak and probably this is the cause. If you wish to write me again, including a self-addressed stamped envelope, I shall be glad to send you the formula for an excellent eye wash and set of exercises for the eyes.

USE OF RESERVATION LANDS IS APPROVED

WASHINGTON, Feb. 9.—The joint resolution authorizing the Panama-Pacific Exposition Company to use certain lands in the Presidio and Fort Mason reservations was reported favorably to the Senate by Senator Dupont, chairman of the Committee on Military Affairs. Senator Perkins said he believed it would pass the Senate in a few days. It has already passed the House.

Lots of men who are worrying about what is going to happen to them in the next world wouldn't be if they could send the furnace in their own house down there.—New York Press.

REDUCTION OF ALASKA CABLE TOLLS IS URGED

WASHINGTON, Feb. 9.—The cost of a cable message over the government lines from Seattle to Nome is 280 per cent higher than the cost of a Seattle-to-London message, according to statements made before the house committee on territories yesterday by former Senator Wilson of Washington.

Governor Clark, Bishop Rowe and other Alaskans urged the committee to aid in reducing cable tolls, to provide an adequate system of fish protection to increase number of lighthouses and aids to navigation in Alaskan waters and to provide for the construction of government railroads to the coal fields.

AFTER 39 YEARS ARMY DESERTER SURRENDERS

LEAVENWORTH, Kan., Feb. 9.—Patrick Butler, who deserted from Company E, Second Infantry, thirty-nine years ago, according to his statement, gave himself up at the post guard house at Fort Leavenworth.

"I'm an honest man," Butler told the post adjutant, Captain J. J. McRey. "I've wandered about the country for thirty-nine years with that on my conscience and now I'm ready to take my medicine."

If Butler's statement is verified he will be allowed to go with a "deserters' release."

State Department at Washington Fears Situation Is Grave.

Madero May Be Powerless to Quell the Rebellion Against Him.

GUADALAJARA, Mex., Feb. 9.—Sixty federal troops today fought with 200 Zapatistas near Panjamo, state of Guanajuato, near the Jalisco railroad line. Seven federal and fifteen rebels were killed.

Bandits have been operating in Guanajuato and Michoacan for several days and as a consequence the express companies refuse to receive valuables for shipment in those states.

The railroad bridges at Torreon have been hastily repaired and Abram Gonzales, minister of the interior, proceeded to Eagle Pass, Tex., by special train, last night.

FACES FEB. 9.—Although Mexican federalists have been victorious against the Zapatistas in several instances, according to reports to the state department, the federal government still is facing a difficult problem.

Chapala, in the state of Jalisco, is reported to have gone over to the rebels, and events in the state of Michoacan are reported to have taken a serious turn. A report from the American consul at Chihuahua notes the situation there unchanged.

The purpose of Lieutenant-Colonel Sturgis' trip from San Antonio for Houston, Tex., was explained by the state department, was to obtain information of sites for maneuver camps in the event of a mobilization.

GAINING GROUND.

Intimating that the revolutionists in Mexico are rapidly gaining ground, the State Department last night issued the following official statement:

"The situation reported at Casas Grande, in Mexico, seems serious, as the local authorities have declared against the Madero government, and the soldiers as well as the officials seem to be in sympathy with the movement."

Between Juarez and that section the railroad communication has been abandoned and apparently that region is in control of the anti-Maderistas."

Commenting on the situation, General Leonard Wood, chief of staff, said:

"The situation looked very bad to us Sunday, and so the orders that all troops should be held in readiness were issued next day. We have had no exceptionally bad day since that time. It has been deemed wise, however, not to cancel the orders."

WASHINGTON, Feb. 9.—A request from the Mexican government to move its troops through United States territory was yesterday granted. A regiment of Mexican soldiers tomorrow will travel through southern Texas from Eagle Pass to El Paso, in an effort to reach Chihuahua. American officers will escort them. The arms will be shipped as a coal consignment.

CITY OF MEXICO, Feb. 9.—Stirred by the rebellion in northern Mexico, President Madero yesterday asked the permanent committee of Congress for permission to call a special session of the national senate, from which the president desires authority to communicate with the American government relative to sending troops through United States territory to enter Chihuahua from the north.

President Madero told the committee conditions were such as to make it impossible to aid the rebel infested region without great delay unless such routing of troops was permitted. The committee also considered today the report of a group of senators who asked that a special session of congress be called to consider the best means of coping with the growing revolt. The committee said both petitions to a sub-committee, which is expected to report within eight days.

Dispatches received in the capital today show that railway communication between Torreon and Chihuahua is still broken, and that since yesterday Torreon's only way of reaching the north by railroad was stopped when three bridges on the line connecting that city with Monterrey were burned and another torn out on the international railroad, whose northern terminus is the border town of Ciudad Porfirio Diaz, known since the Madero regime as Ciudad Madero.

Another temporary blocking of traffic occurred when the rebels derailed a Mexican Central train of 14 freight cars a short distance north of Chihuahua. On the same road at Villanueva rebels last night raided the station. Reports from Torreon say the number of rebels is increasing.

From southern Mexico reports indicate

SOUTH BEND, Ind., EDITOR TRIBUNE.—Sir: Permit me to acknowledge the receipt of THE OAKLAND TRIBUNE ANNUAL, and to thank you for it.

It is certainly a splendid portrayal of the possessions and possibilities of Oakland and Alameda county.

For editorship and cleanness of diction and description I've not seen its equal, and the frank, terse, manly preface by Mr. Joseph E. Baker is a winner.

I'm especially interested in it all, because I hope, within a year or so, to make Oakland my home. Sincerely,

W. P. McHENRY.

Student at Night School Is Attacked by Ten Young Roughs.

SAN FRANCISCO, Feb. 9.—Dionysius McGinn, a student at the Washington night school, which Jimmie Kane, who was killed in the feud with the Chinese born, also attended, was attacked by a gang of ten young toughs at Jackson and Mason streets, last night. McGinn was on his way from school when, without warning, he was surrounded by the band who beat him severely. POLICE TO OUST
JIMMIE LAWLER

SAN FRANCISCO, Feb. 9.—Simultaneously with the beginning of the third trial of ex-prizefighter Jimmie Lawler for an alleged attack on Ada Fulton, Captain Dukes issued orders to run Lawler out of the tenderloin.

Shortly before Judge Shortall called the case Lawler asked for a change of venue to San Mateo county, but the application was denied.

Captain Dukes' order to the Barbary Coast police is as follows: "As I have gathered evidence that convinces me that the notorious Jimmie Lawler has been making a practice of drugging and robbing visitors to the Barbary Coast, I direct that officers shall make it their business to see that he keeps away from this neighborhood and if he fails to do so arrest him for vagrancy at every opportunity."

MASKED THUGS
HOLD UP
STORE

Two Robbers Are Believed to Be the Footpads Who Stopped Pedestrian.

Thieves Secure \$375 From Chinese, Who Is Robbed Early Today.

Two hold-ups have been committed by two bandits, armed and masked, within the last 12 hours and the police are working on the theory that both crimes were committed by the same men. The money taken by the bandits amounts to approximately \$400.

Two masked bandits, armed with revolvers, last night confronted M. J. Perry of 1800 Eighty-first avenue as he was on his way home, and held him up, taking \$375 from him. The robbery occurred shortly before midnight at Eighty-first avenue and East Fourteenth street.

Perry offered no resistance, as the two footpads came upon him without warning and had him covered with their revolvers before he realized his predicament. After taking his money, the men ran down Eighty-first avenue.

The second robbery was committed at 7:30 o'clock this morning, when two men answering in many ways the description of the men who attacked Perry, entered the store of Gee Chuck, a Chinese merchant of 1112 Franklin street, and held up the place. Both were armed and wore black masks. They took \$375 and a revolver from Gee Chuck, who had just opened the store. After commanding Chuck to remain quiet, the robbers hurriedly left the place.

Other thefts reported to the police are as follows:

J. C. Hornsman of 1050 East Twelfth street, house entered and gold watch valued at \$25 stolen.

J. E. McNamara of St. Mary's College, stolen from gymnasium, watch and chain, valued at \$35.

PROTECT HOME
INDUSTRIES,
REQUEST

Alameda Sugar Co. Addresses Open Letter to Oakland Tribune.

EDITOR TRIBUNE.—The Alameda Sugar Co. is located at Alvarado in Alameda county. Its factory is the oldest and at one time it was the only beet sugar factory in operation in the United States.

The company has seen the progress and the growth of the beet sugar industry from 45,000 tons in 1897 to 600,000 tons in 1911.

This growth has become a menace to the Eastern refiners of duty-paying, raw cane sugar, and they combined in a persistent attack on the beet sugar interests, seeking an abolition of the duty under the cloak of serving the ultimate consumer.

Their professions in this regard are insincere and their motives are purely selfish.

Our company is a member of the United States Beet Sugar Industry, which defensive organization was made necessary by the operations of the Eastern cane refiners. We enclose one of its published leaflets, compiled from testimony recently taken by the Hardwick committee.

California produced in 1911 nearly 150,000 tons of beet sugar, nearly one-quarter of our entire beet product.

If your views are in line with the protection of American industries until the official authorities become satisfied that protection is no longer needed to make our country self-sufficient in the matter of sugar, we would be glad if you would make such comment in your columns as accord with your opinions on the subject.

If you should be in want of any information we will be glad to give it to you.

Yours truly,
JOHN L. HOWARD,
President.

CORTLEYOU IS
QUESTIONED
CLOSELY

States Why Fraud Order Was Issued Against St. Louis Publisher.

WASHINGTON, Feb. 9.—George B. Cortleyou told the house committee on expenditures in the postoffice department today of his action in issuing fraud orders against E. G. Lewis of St. Louis in 1905 and 1907, while he was postmaster-general. A publishing company owned by Lewis, and also the United States bank of St. Louis, were affected by the orders. Frank Madden, who was third assistant postmaster-general under Cortleyou, is now counsel for Lewis. Cortleyou said Madden had refused to issue fraud orders against Lewis and that he had issued them personally.

Cortleyou denied that any "extraneous influences" had to do with his action in the Lewis case. His attention was called by Third Assistant Postmaster General Britt to testimony taken in the investigation of the case suggesting that former United States Senator Platt and the Express company interests had sought the destruction of the Lewis company's bank, and that it was through Platt's influence that Cortleyou had been made postmaster-general.

TENOR OF EXAMINATION. "Did former Senator Platt or any express company trust," asked Britt, "either influence you or attempt to influence you in your action in this case?"

"Not in any way whatever," Cortleyou replied. "Senator Platt never appeared in the case at any time to my knowledge. There was no such influence introduced that I ever heard of."

Reading from the record, Britt reviewed testimony of Madden in which interferences were made that the express companies had sought to break up the Lewis bank, because it did a mail banking business, which interfered with the money order business and that Senator Platt had Cortleyou appointed to attack the bank and destroy it. All such interferences Cortleyou emphatically denied. That anything entered the case except the evidence before him through regular channels, he also denied.

"There never was anything before me or in my mind to cause me to issue an order prejudicial to the Lewis company," said Cortleyou. "I acted in this case because it was the duty before me."

ALBANY ELECTRIC LINE TO TAP RICHMOND. RICHMOND, Feb. 9.—At the last meeting of the Richmond city council G. B. Cortleyou, master for the Southern Pacific, stated that the Albany electric service was heading in this direction and that Richmond could welcome its arrival some time during the coming summer.

AN OBJECT LESSON

from experienced business men to doubters and inexperienced advertisers

It is becoming more and more an established custom of the successful business men of Oakland to buy larger amounts of advertising space in

The Tribune

than in all other Oakland papers and the five other dailies circulating in Alameda county COMBINED.

Why Do They Do This?

Simply because they have found after years of experience that the great circulation of THE TRIBUNE blankets its field so completely that their announcements are seen by practically ALL OF THE PEOPLE in Oakland and suburbs.

This explains the fact that AGAIN in January, 1912, Oakland and San Francisco merchants bought

36,701 Inches (Exclusive of Special Editions)

of advertising in THE TRIBUNE and only

19,918 Inches (Exclusive of Special Editions)

in The Enquirer

the nearest competitor, the advertising space measurements rapidly decreasing to practically nil in the other mediums in this field.

There is no further proof necessary of the great supremacy of

THE TRIBUNE

as an advertising and news medium.
